

Romain Pena Ruiz

Shopify & Frontend Developer — Custom Storefronts, Apps & Integrations

rom.penaruiz@gmail.com (514) 415-4450 Montreal, QC romainpena.com linkedin.com/in/romainpenaruiz

SUMMARY

Frontend & Shopify developer with 6+ years of experience building custom storefronts, backend integrations, and web experiences — from pixel-perfect Figma implementations to production backend services. A background in psychology informs a user-first approach to every interface. Now independent, collaborating with agencies, designers, and product teams.

EXPERIENCE

Field Office — Full Stack Developer

Jun 2021 – Oct 2025 · Montreal, QC

- Developed a daily database-to-Shopify sync app for Animo etc — automating bulk product creation and updates via webhooks, with custom inventory deduction logic overriding Shopify's default behavior
- Built the full Atari Shopify storefront from Figma — MetaMask wallet sync for NFT purchases, Trevco integration to track fulfilled order status, and a custom fulfillment backend routing orders by shipping partner
- Delivered pixel-perfect Liquid themes from Figma for clients including TOGETHXR, Jayson Home, and &OR Collective; ongoing retainer work including custom checkout app, cart and nav redesigns
- Built cinematic scroll experiences with GSAP and Framer Motion; bilingual storefronts using next-intl; CMS integrations with Sanity, Contentful, and Prismic
- Webflow builds including Groupe Copley, a bilingual EN/FR luxury real estate platform
- Led Sanity v2 → v3 migration for Octasic (Next.js), a Montreal defense tech company building RF and wireless solutions for military and law enforcement

Le Wagon Montreal — Teaching Assistant

Mar 2021 – Jan 2025 · Montreal, QC

- Supported students in building full-stack projects using Ruby on Rails, REST APIs, SQL, JavaScript, and Bootstrap
- Provided hands-on guidance during project phases, helping career-changers debug, architect, and ship working applications

Beslogic Inc — Full Stack Developer

Sep 2019 – Apr 2020 · Montreal, QC

- Full-stack development on enterprise web applications using C#, ASP.NET Core, Angular, and TypeScript
- Collaborated with a team to plan, build, and maintain robust solutions; wrote extensible code and improved existing interfaces and performance

EDUCATION

Le Wagon — Web Development Bootcamp

2019 · Montreal

Cal State Long Beach — BA Psychology

2018 · Long Beach, CA
